As a Piptle Agent, I can help you with planning a property pathway to give you the life you deserve.

Contemplating selling, but love your home too much to leave? Need help to work through your options?

- Maybe you are looking to downsize, or could use a financial boost to help with today's escalating living costs. We can help you navigate through your options like, 'Equity Release', room sharing, a portable home in your backyard, or simply selling a fraction of your home.

Need help with renovation or marketing costs?

- As a Piptle client, you can access up to \$60,000 to cover marketing, renovations, staging, and more. Get your funds 24 hours after approval, with up to 8 months to repay, or at settlement, whichever comes first.

Purchasing a new home might seem overwhelming, especially if you're unable to access the deposit until your current home sells. We've got you covered!

- Unlock a deposit for your new home when your current property goes unconditional, with access of up to \$250,000. Get funds within 24 hours after approval. Repay at settlement.

We are always looking for new ways to leverage technology with cutting-edge tools to drive better outcomes for our clients.

I look forward to supporting you in achieving your real estate dreams and goals.
